Progression Overview of Vocabulary in History

Within this document we have highlighted the tier 3 subject specific vocabulary for each of our History units. This document identifies when specific vocabulary is first taught, but it is then revisited and retrieved over time to ensure that it stays in the children's long-term memory. The same vocabulary used by a child in Key Stage will be used in different contexts and at a deeper level. Alongside this sits our Historical Vocabulary Progression grid, where we have identified key vocabulary which we expect the children to confidently use and understand by the end of that teaching phase (EYFS/KS1/LKS2/UKS2), and is built upon and developed as a child makes their way through school. This includes our Golden Threads for our History curriculum of: Diversity, Settlement, Conflict & Invasion and Transport.
